

## GUIDELINES FOR SELECTION OF COURSES

Before applying, students are recommended to check available courses from the relevant degrees on the [Course Catalogue](#) (list available [HERE](#)).

When selecting the course, please mind the following items:

1. Make sure to select courses scheduled during the semester and academic year you are applying for
2. Check degree level (Bachelor, Master) of the course. Bachelor's degree students will be allowed to add only maximum 2 courses offered by Master's degrees
3. You cannot select annual courses if you applied for a single semester
4. Be aware about Language of teaching, see information below
5. Attendance to the courses is highly recommended and in some cases, for example during lab session, is mandatory in order to be admitted to the exam
6. Be aware about the type of final exam (written, oral, practical)
7. Type evaluation: in some cases students will receive a judgement/confirmation of attendance instead of a grade, make sure that this will not affect credits recognition at your home institution
8. You are allowed to include maximum one teaching activity held by another Department of the University of Pisa, as long as it is consistent with your educational project. Your request is subject to the evaluation of the Erasmus Coordinator who may accept or reject it. In case of rejection, the student shall only include teaching activities held by the Department of Biology
9. It will not be possible to select a course for a lower number of ECTS than offered
10. Please always include the course code in your Learning Agreement Before the mobility
11. Some courses consist of different modules. You cannot select just a single module but only the entire course
12. Be aware that courses from different degrees may have overlapping timetables and distant locations, please check
13. At the end of mobility, you will be only provided with the list of passed exams, any kind of certificate of attendance to classes or exams session **WILL NOT BE PROVIDED.**
